PlotIQ

Installation Guide

PlotIQ – AutoCAD Plugin
Compatible With: AutoCAD (64-bit)
Requirements: Administrator rights required during installation only

---

1. Installation Instructions

1. Close AutoCAD if it is currently running.
2. Run PlotIQ_Setup.exe.
3. Click **Install** and wait for the installation to complete.
4. Launch AutoCAD.
5. PlotIQ will load automatically after AutoCAD starts.

---

2. First-Time Setup (Important)

PlotIQ uses the following configuration files:

- PlotIQ.cfg – Stores appearance and rule configurations
- Default.pfxpal – Stores color and style palette settings

These files are automatically installed in the following location:

C:\ProgramData\PlotIQ\

Manual editing of these files is generally not required. However, you may create copies of these files in another location, load and modify them based on your requirements, and save the updated configurations for future use.

---

3. Support

If you face any issues during installation or setup, please contact us and we will be happy to assist.
